Subject: Necessity of IPRC Graduates for Rwandair

Rwandair being the flag carrier airline of Rwanda has expanded drastically in almost all sections especially Fleets and employee numbers. As part of RwandAir's expansion strategy it is looking for interested, qualified and competent candidates to fill the much needed position of **Trainee Aircraft Maintenance Technicians**. Our number one target for such employees in Rwanda is all IPRC schools which we believe have the best candidates with such qualities. We therefore urge you to encourage all graduates from IPRC to visit our website; [www. Rwandair.com](http://www.Rwandair.com), and apply for the position of Trainee Aircraft Maintenance Technicians.

Once again we greatly appreciate your partnership, commitment and support in providing technical and vocational training in the Country.

Yours sincerely,

Chance NDAGANO
Chief Executive Officer
RwandAir Ltd
